

ARS Serves: Community Partners

At ARS, our team strives to be good corporate citizens by giving back to the communities in which we operate. Our charitable giving efforts are focused on the development and maintenance of strong communities where our business, employees, and customers can thrive. Since 2006 we have provided financial support, supplies, and volunteer resources to non-profit organizations across the northeast.

In particular, we are active supporters of two prominent breast cancer charities including the Ellie Fund and Gloria Gemma Breast Cancer Research Foundation. A number of our employees have family, friends and colleagues who have battled this disease.

Throughout the year we host fundraisers to support these organizations including our annual Casino Night, football pool, and golf outing.

TO DATE ARS CHARITABLE EFFORTS HAVE RAISED OVER \$4 MILLION TO SUPPORT THESE WORTHY CAUSES.

In September of 2018 our efforts were recognized by the Boston Business Journal's Corporate Citizenship Awards program as our company was named one of just 10 Corporate/Nonprofit "Partners of the Year" for our longstanding relationship with the Ellie Fund.

ADDITIONAL CHARITIES WE SUPPORT INCLUDE:

ARS BRANCH COMMUNITY SERVICE PROGRAM

We are always looking to support the interests of those within our communities. In 2017 we introduced the ARS Branch Community Service Program to ensure each branch office team has an opportunity to volunteer together at a non-profit organization of their choice. Our team has worked with organizations ranging from the Connecticut Food Bank to the Massachusetts Horticultural Society. The program has been so well-received that we are continuing to solicit organizations across New England for volunteer opportunities. If you know of a local non-profit that is looking for help, email us at info@arsserv.com.
